PEBBIEB002 Oil Base Product with "QUICK KNOCK DOWN". Leaves *NO Residual* insecticide on mattresses and other surfaces. Contains a "Flushing Agent" and *Natural Pyrethrum*. Can be used on mattresses, beds, baseboards and floors. Also control fleas, ticks and spiders.

PEBBIEB032 Water Base Product with a *Synthetic Pyrethroid*. Long-lasting - Up to 16 weeks. Leaves a *residual insecticide* on mattresses, bed and other labeled areas. Also controls fleas and ticks.

PEBBIEBR06 Water Base Product. *Labeled for use on Luggage* to help prevent bringing Bedbugs home while traveling. Can be used on beds, mattresses, baseboards, moldings and floors. Also controls clothes moths, lice and louse eggs.

PEBBIEDC07 Diatomaceous Earth. Fossilized single-cell aquatic plants deposited in the Earth's Crust millions of years ago. Kill insects by absorbing the fluids in their bodies. Insects dry up and die. *All Natural Powder Product*. Insects never become resistant. Remains effective as long as powder remains dry. Apply to mattresses, bed frames and all cracks and crevices in the bedroom. Can be "Puffed" into light switches and wall outlets where liquid products would be hazardous. Also controls ants and fleas.
